acIm/"sequestering agents"

PAT.  
NO.

Title

- 1 6,489,090 **T** Stabilized ascorbic acid developing compositions and methods of use
- 2 6,488,947 **T** Topical composition comprising a functional aromatic derivative cosmetic bonding agent
- 3 6,486,105 **T** Heat activated durable conditioning compositions comprising C3 to C5 monosaccharides, and methods for using same
- 4 6,485,732 **T** Topical composition comprising a cyclic imidocarbonate-based cosmetic bonding agent
- 5 6,485,580 **T** Composition and process for treating surfaces or light metals and their alloys
- 6 6,482,400 **T** Mascara containing film-forming polymers
- 7 6,479,042 **T** Reducing agent with several constituents comprising at least a composition in powder form containing an agent for reducing hair sulphur bonds and method for permanent setting of keratin fibres
- 8 6,475,495 **T** Hyperbranched polymers or dendrimers containing a particular group, preparation process, use and compositions comprising them
- 9 6,475,247 **T** Naphthalene cationic coupler for oxidation dyeing of keratin fiber
- 10 6,471,953 **T** Permanent-waving process comprising the preliminary application of a composition comprising at least one anionic polymer
- 11 6,471,730 **T** Dyeing composition containing a laccase and keratinous fiber dyeing methods using same
- 12 6,468,549 **T** Acidic compositions or dermatological composition containing a crosslinked poly (2-acrylamido-2-methylpropanesulfonic acid) neutralized to at least 90%
- 13 6,465,451 **T** Hypolipidemic benzothiazepine compounds

- 14 6,461,389 T Cationic coupling agents, their use for oxidation dyeing of keratinous fibers, dyeing compositions and dyeing methods
- 15 6,458,168 T Hair dyeing method using an aliphatic cationic amine and compound chosen from an aldehyde, a ketone, a quinone, a di-imino-isoindoline, and a 3-aminoisoindolone derivative
- 16 6,451,289 T Albuterol formulations
- 17 6,451,068 T Cationic compounds, their use as coupling agents for oxidation dyeing of keratinous fibers, dyeing compositions and dyeing methods
- 18 6,451,067 T Dyeing method using a heterocyclic cationic amine and a compound chosen from an aldehyde, a ketone, a quinone, a di-iminoisoindoline derivative and a 3-amino-isoindolone derivative
- 19 6,444,414 T Ascorbic acid developing compositions stabilized with sulfo compound and methods of use
- 20 6,435,193 T Hair relaxer compositions utilizing cation exchange compositions
- 21 6,432,894 T Composition for washing keratin materials, based on a detergent surfactant, a polyorganosiloxane and an acrylic terpolymer
- 22 6,432,146 T Use of a combination of two cationic dyes for the direct dyeing of keratin fibers
- 23 6,423,305 T Cosmetic composition comprising at least an amidoethercarboxylic acid surfactant and at least a cationic polymer/anionic polymer combination
- 24 6,423,109 T Free flowing fertilizer composition with enhanced deposition/anti drift characteristics
- 25 6,420,473 T Acrylic enteric coating compositions
- 26 6,420,329 T Cleaning compositions
- 27 6,419,711 T Oxidation dyeing compositions containing a cationic coupling agent, novel cationic coupling agents
- 28 6,417,151 T Activators for peroxide compounds in detergents and cleaning agents
- 29 6,416,770 T Use of heterocyclic quaternary polyammonium polymers as protective agent for keratin fibres and cosmetic compositions
- 30 6,410,593 T Antidandruff compositions
- 31 6,409,772 T Use of hydroxystilbenes for dyeing, ready-to-use composition containing them and dyeing process
- 32 6,403,542 T Composition for washing keratin materials, based on a detergent surfactant, a vinyl lactam cationic polymer and an acrylic terpolymer
- 33 6,403,070 T Anhydrous deodorant composition
- 34 6,399,547 T Well treatment fluids comprising mixed aldehydes
- 35 6,383,996 T Antidandruff composition for treating the hair and the scalp, based on an antidandruff agent and an acrylic terpolymer
- 36 6,383,995 T Composition for washing keratin materials, based on a detergent surfactant, a polyorganosiloxane, a cationic polymer and a acrylic terpolymer
- 37 6,383,994 T Composition for washing keratin materials, based on detergent surfactant, an functionalized silicone and an acrylic terpolymer
- 38 6,383,993 T Composition for washing keratin materials, based on a detergent surfactant, a cationic galactomannan gum and an acrylic terpolymer
- 39 6,379,401 T Anhydrous composition for bleaching keratin fibers comprising a combination of a water-soluble thickening polymer and a nonionic amphiphilic polymer comprising at least one fatty chain

- 40 6,376,547 **T** Tuberculocidal disinfectant
- 41 6,376,437 **T** Skin cleansing composition for removing ink
- 42 6,375,958 **T** Cosmetic compounds containing at least one anionic surfactant of alkylgalactoside uronate type and at least one organopolysiloxane
- 43 6,372,255 **T** Tablet for instant and prolonged release of one or more active substances
- 44 6,358,500 **T** Stable W/O/W emulsion and its use as cosmetic and/or dermatological composition
- 45 6,346,256 **T** Stable O/W/O emulsion and its use as a cosmetic and/or dermatological composition
- 46 6,337,066 **T** Cosmetic and/or dermatological composition based on ascorbic acid in powder form
- 47 6,333,026 **T** Use of an indigoid compound in a cosmetic composition, in particular a make-up composition, in order to confer on it antimicrobial properties and the property of lengthy hold over time
- 48 6,328,816 **T** Composition and method for degreasing metal surfaces
- 49 6,312,677 **T** Cosmetic composition based on nonionic surfactants and cationic or amphoteric substantive polymers and its use as a dyeing or bleaching vehicle
- 50 6,312,477 **T** Oxidizing composition and uses for dyeing, permanently setting or bleaching keratin fibres
-
